

Conference ZONE

Conference Calling made Simple

Do you want to increase your profit margins?
 By lowering your costs.

Do you want to increase your collaboration?
 With vendors, customers and employees.

Do you want to increase your productivity?
 By collaborating more often at a lower rate.

Always one access number

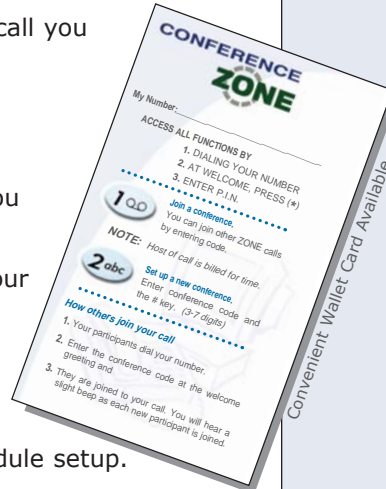

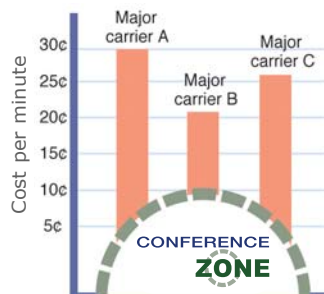

- For one small price you get your own private toll free (800/888/877/866) number.
- Numbers permanently assigned to you, no one else will use it.
- You choose conference code for each call you setup, or use same code.
- Only one number to remember.
- Great for recurring conferences.
- Access your system from anywhere you have a touch tone phone. (USA)
- Participants dial your number, enter your conference security code and they are connected immediately.

Scheduling

- No operators to call and wait for schedule setup.
- Your system is available to you 24/7 on demand.
- You may also schedule calls in advance by phone or web:
 Enter your conference code, start date, start time, duration, number of callers expected.
- When time arrives call is setup for you.
- Callers may join even if you are late to the call.

Web-based billing

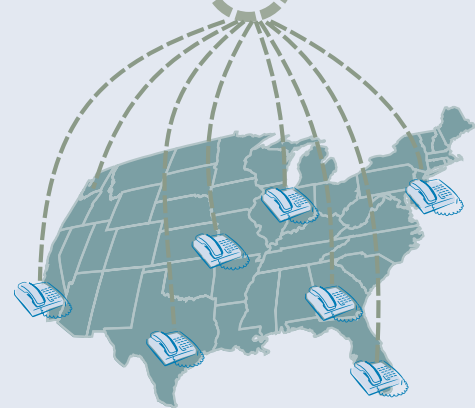

- Invoices/statements e-mailed to you each month.
- Carbon copy options available for departmental functions.
- HTML format for easy viewing & printing.
- Archive on your system for future reference.
- Up to one year archived online at the ZONE web site.
- No paper to deal with or regular mail delays.

Convenient Wallet Card Available

Our philosophy on every product we sell is "keep it simple". Our telephone conferencing system continues this tradition and adds a few nice functions to make your life a bit easier. We have a nice, clean web browser interface that allows you to easily schedule conferences and view information and history about them including on line web based bill presentment. But for most of us, we don't care about fancy web interfaces; we just want fast, affordable conferencing on demand. And the ZONE delivers. With low rates per minute per participant and only 20 seconds to setup a call we make your decision easy as to which conference bridge to use.
